RELEASE DATE: May 10, 2024

New Fire Station Design and Engineering Funds Approved at the Annual Fire District Meeting

Barnstable, MA: On May 8th, 2024, at the Annual Barnstable Fire District Meeting, district voters unanimously approved an article for the design and engineering of a new fire station. This request is a result of months of hard work by the Fire Station Building Committee to move forward with the replacement of our current fire station.

Fire Chief Chris Beal, the Owners Project Manager, Steve Rizzo, and members of the Fire Station Building Committee are very excited to be moving forward with the design of a new fire station. There will be many public meetings to follow, in an effort to educate the residents and to also solicit ideas and thoughts regarding the look and overall design of the new fire station. More info to come on this exciting project. Thank you to the Barnstable Fire District Voters that came out to support this project.
